MMR_0553 Craig Symington Thousand Lakes Region Thunder Bay Ontario

Craig Symington MMR has written over 50 articles for the Narrow Gage and Short Line Gazette.

Craig Symington is a model railroad enthusiast known for his impressive work. His HOn3 layout is based on the first district of the Rio Grande Southern Railroad, which ran from Ridgway to Rico, Colorado, and includes the branch to Telluride. The timeframe for his layout is set in September 1941, and all the scenes are true to the prototype .

Google search as there are several of his videos online.
